

I urge Chairman Powell to vote on June 2 AGAINST the proposition that would result in or allow the consolidation of media ownership thereby allowing monopolies to rule the airways. Freedom of speech and the ability to listen to and express diverse opinions is a cornerstone of this democracy, which would be inevitably jeopardized and subtly eroded through the single vision that results from monopolies. The passage of the relaxed ownership rules is flying against everything that our forefathers fought so valiantly for, and that our boys are fighting to preserve now, our basic freedoms! The public is weary of having its interests cast aside in favor of private/corporate interests. Thank you for your consideration.
